

StockManager Transfers to/from Tablet/Phone using Wifi

Mobile Hotspot and FTP Server should still be running on your tablet/phone (in background), as long as you haven't powered off (rebooted). If you have powered off, you probably need to do the ** operations.

On the Tablet ...

** Settings → More → Tethering & Portable Hotspot → Portable Wifi Hotspot

** FTP Server Ultimate → Start → Yes

On the laptop ...

Connect to the StockMate Wifi

Run **StockManager**

Select **Outlet 100**

Liquor

Prepare Data

Link To StockMate

Wait for it to connect

Send Products

On the Tablet ...

Run **StockMate** and do the count

On the laptop ...

Run **StockManager**

Select **Outlet 100**

Link To StockMate

Wait for it to connect

Retrieve Count

Quit
